WHY CHOOSE ALCEDO CARE?

Fast mobilisation time

Outcome Focused

Zero agency staff

Award winning specialist care

Case Study

Craig

The Challenge
Craig was born with microcephaly and requires support with all aspects of daily living. Following his mother's terminal illness and passing, Craig faced a significant life change after spending his entire life being cared for by her.

Our Support
Our 24-hour live-in care team gradually integrated into Craig's daily routine, providing personal care, medication support, companionship, and emotional reassurance. We also encourage independence wherever possible, supporting Craig to enjoy activities he loves, including shopping, walks, and spending time in his local community.

The Outcomes
Craig has been able to remain in the home and community he knows and loves while receiving consistent, person-centred support. With a dedicated care team around him, he continues to live a meaningful life with comfort, stability, and opportunities to maintain his independence.

> **"Live-in care** has enabled Craig **to remain in the home he loves,** surrounded by the community he knows, while continuing to **live a full and meaningful life."**
